The Developing & Assessing Nutrition Education Handouts (DANEH) checklist was created by the Academy of Nutrition and Dietetics Foundation as part of the Future of Food (FOF) project. The purpose of the DANEH checklist is twofold: 1) to screen existing nutrition education handouts in order to establish the inclusion/exclusion of important quality components, and; 2) as a tool to use in developing quality nutrition education handouts. The checklist incorporates 22 constructs identified as quality indicators to be included in nutrition education handouts, based on a literature review. The constructs are categorized into five main topic areas: content; behavior focus; cultural sensitivity; written word; and organization/readability.

The DANEH checklist is being used to vet nutrition education handouts for inclusion in the FOF Healthy Food Bank Resource Hub website. To do so, a simple scoring system was developed, and is included at the end of this document. For the purposes of FOF project, it was determined that a score of 16 out of 21 possible points (76%) by two trained reviewers would be needed to meet the benchmark for handouts to be included in the Healthy Food Bank Resource Hub website. This is a subjective cut-point, and not based on a validation of the tool. Others using the DANEH checklist may wish to employ a different scoring system for determining what might be considered acceptable for their purposes.
